3 2 2

There is an obvious need by many for a home that caters for the disabled, the aged or even the frail. To renovate a home to accommodate for wheelchair access and special needs can be expensive. There are currently three bedrooms in all, off the main there is a full bathroom facility with hoist from the bed to the spa, shower and vanity. There is also a study or sitting room with robe space. A wide formal entrance leads to the lounge. Well appointed kitchen meals/family room and two bedrooms with robes. With the convenience of having direct internal access from the double garage and ramps for easy access, this is all situated on a low maintenance block that is truly a special home.
